

REMARKS

Applicant elects Group II, claims 12-22, without traverse, for examination. However, independent claims 1 and 23 of Groups I and III, respectively, have been amended to depend on independent claim 12. Claim 33 has been amended to provide a common inventive concept with claim 12, that is, an apparatus inserted for treating prolapse and an anchoring body for anchoring the apparatus.

Applicant reserves the right to file divisional applications for Groups I and III as independent claim sets (not dependent on claim 12) as long as this application is pending.

An action on the merits is respectfully requested.

Respectfully submitted,
